

# The future of NHS services in Doncaster – your support counts

*Public consultation is currently underway on proposals to change the number of primary care trusts in Doncaster.*

Two options are being considered:

**1** A single primary care trust covering the Doncaster borough area, merging Doncaster's three existing primary care trusts.

**2** A single primary care trust covering the Doncaster and Bassetlaw areas, merging Doncaster's three existing primary care trusts and the current Bassetlaw Primary Care Trust.

## OPTION **1**

- Will be better for patients and focus on meeting the diverse needs of Doncaster people.
- Will mean less red tape, with simpler planning process, quicker service delivery and no duplication.
- Has the support of Doncaster's family doctors and dentists and Doncaster Council.
- Will continue to bring fast public health improvements and quicker progress to better health.

**I support OPTION 1 a single primary care trust covering the Doncaster borough area only, merging Doncaster's three existing primary care trusts.**
